SUBJECT INDEX

Acquired immunity in experimental feline *Microsporum canis* infection, 165
Adenovirus serotype 9, Immunopathogenesis and physical maps of fowl, 174
African swine fever, The pathogenic role of pulmonary intravascular macrophages in acute, 193
Alaskan sled dogs: biochemical correlates, Performance failures in, 271
Albendazole on the fecundity of *Dictyocaulus viviparus*, Effect of sub-lethal doses of, 92
Alkalosis on the acid/base responses to sprint exercise of six racing greyhounds, Effect of acute induced metabolic, 245
Allergen-specific IgG antibodies in atopic dogs, Subclass profile of, 136
Ampicillin/sulbactam (2:1) combination after intravenous administration to sheep and goats, Single-dose pharmacokinetics of, 143
Antipyrine metabolism in calves, Effect of spironolactone on, 87
Arterial blood pressure in conscious dogs, Comparison of direct and indirect (oscillometric) measurements of, 17
Ascites syndrome, Evidence of ultracytochemical mytochondria-derived hydrogen peroxide activity in myocardial cells from chickens with an, 7
Assessment of the quality of tests for the detection of antibodies to Aujeszky's disease virus glycoprotein gE in a target population by the use of receiver operating characteristic curves, 263
Aujeszky's disease virus glycoprotein gE in a target population by the use of receiver operating characteristic curves, Assessment of the quality of tests for the detection of antibodies to, 263
Autologous mixed leucocyte reaction and the polyclonal activity of bovine γ/δ T cells, 65

B_2-integrin, intracellular calcium signalling and functional responses of normal and CD18-deficient bovine neutrophils, Biosynthesis of, 95
Biosynthesis of B_2-integrin, intracellular calcium signalling and functional responses of normal and CD18-deficient bovine neutrophils, 95
Bovine leucocyte adhesion deficiency: a review of a modern disease and its implications, 183

Calcium signalling and functional responses of normal and CD18-deficient bovine neutrophils, Biosynthesis of B_2-integrin, intracellular, 95
Camelus dromedarius and the somatic cell content of camels' milk, Mastitis in, 55
Cardiac performance in conscious healthy dogs during dobutamine infusion, 234
Cardiopulmonary effects of desflurane in the dog during spontaneous and artificial ventilation, 82
Castration at seven or 14 days of age, Protein-bound and unbound forms of plasma cortisol in piglets after, 22
Characterisation of leucocytic somatic cells in bovine milk, 179
Characterisation of proteins in the seminal plasma of stallions, geldings and geldings supplemented with testosterone, 33
Characterisation of the acute phase response of heifers to a prolonged low dose infusion of lipopolysaccharide, 252
Chemiluminescence of the activation of isolated equine leucocytes, Experimental model for the study by, 59
Chronic obstructive pulmonary disease, Effects of platelet activating factor on the distribution of radiolabelled leucocytes and platelets in normal horses and asymptomatic horses with, 107
Clostridium perfringens from foal faeces, Improved isolation of, 147
Comparative evaluation of impulse oscillometry and a monofrequency forced oscillation technique in clinically healthy calves undergoing bronchochallenges, 206
Comparison of direct and indirect (oscillometric) measurements of arterial blood pressure in conscious dogs, 17
Comparison of media and conditions of incubation for the quantitative culture of *Malassezia pachydermatis* from canine skin, 273
Comparison of T-cell subpopulations in cats naturally infected with feline leukaemia virus or feline immunodeficiency virus, 222
Cortisol in piglets after castration at seven or 14 days of age, Protein-bound and unbound forms of, 22
Cytogenic variation between four cases of feline fibrosarcoma, 268

Desflurane in the dog during spontaneous and artificial ventilation, Cardiopulmonary effects of, 82
Dictyocaulus viviparus, Effect of sub-lethal doses of albendazole on the fecundity of, 92
Dobutamine infusion, Cardiac performance in conscious healthy dogs during, 234
Dyschondroplasia, Expression of the gene for transforming growth factor-beta in avian, 120

Echinococcus granulosus antigen B and seroactivity in natural ovine hydatidosis, 102
Effect of acute induced metabolic alkalosis on the acid/base responses to sprint exercise of six racing greyhounds, 245
Effect of mixed infection of *Mycoplasma gallinarum* and Newcastle disease virus (F strain) on the tracheal epithelium of village chickens, 176
Effect of spironolactone on antipyrine metabolism in calves, 87
Effect of sub-lethal doses of albendazole on the fecundity of *Dictyocaulus viviparus*, 92
Effect of supplementary feeding during the sucking period on net absorption from the small intestine of weaned pigs, 72
Effects of oral ursodeoxycholic acid in healthy cats on clinicopathological parameters, serum bile acids and light microscopic and ultrastructural features of the liver, 258
Effects of platelet activating factor on the distribution of radiolabelled leucocytes and platelets in normal horses and asymptomatic horses with chronic obstructive pulmonary disease, 107
Endurance horses with different performance records, Muscle biopsy index for discriminating between, 49
Erythropoietin to canine serum, Validation and application of an enzyme-linked immunoassay for human, 13
Evaluation of thrombin-antithrombin complexes and fibrin fragment D in carbohydrated-induced acute laminitis, 157
Evidence of ultracytochemical mytochondria-derived hydrogen peroxide activity in myocardial cells from chickens with an ascites syndrome, 7
Excitatory effects of volatile fatty acids on the in vitro motility of the rumen of sheep, 1
Experimental model for the study by chemiluminescence of the activation of isolated equine leucocytes, 59
Expression of the gene for transforming growth factor-beta in avian dyschondroplasia, 120

Fasciola hepatica in sheep: changes in liver metabolism, 152
Fat necrosis, Lipogenic and lipolytic activities in isolated adipocytes from cattle with, 214
Feline leukaemia virus or feline immunodeficiency virus, Comparison of T-cell subpopulations in cats naturally infected with, 222
Fibrin fragment D in carbohydrate-induced acute laminitis, Evaluation of thrombin-antithrombin complexes and, 157
Fibrosarcoma, Cytogenic variation between four cases of feline, 268
Fluxinin meglumine and meclofenamic acid in dog, goat and horse blood, Protein binding and in vitro serum thromboxane B_2 inhibition by, 78

Foot-and-mouth disease antibodies in dairy herds in the Netherlands four years after vaccination, Prevalence of, 89
γ/δ T cells, Autologous mixed leucocyte reaction and the polyclonal activity of bovine, 65
Gentamicin induced nephrotoxicosis in lambs, 187
Greyhounds to sprint exercise, Effect of acute induced metabolic alkalosis on the acid/base responses, of six racing, 245
Growth factor-beta in avian dyschondroplasia, Expression of the gene for transforming, 120

Haemonchus contortus infections, Response of Dorper and red Maasai lambs to trickle, 218
Hoof, Volume assessment of the bovine, 125
Hydatidosis, *Echinococcus granulosus* antigen B and seroactivity in natural ovine, 102
Hydrogen peroxide activity in myocardial cells from chickens with an ascites syndrome, Evidence of ultracytochemical mytochondria-derived, 7

IgG antibodies in atopic dogs, Subclass profile of allergen-specific, 236
IgG subclasses of canine anti-erythrocyte, antinuclear and anti-thyroglobulin autoantibodies, 129
Immunopathogenesis and physical maps of fowl adenovirus serotype 9, 174
Improved isolation of *Clostridium perfringens* from foal faeces, 147
In vitro blastogenic responses and interferon-γ production by intestinal intraepithelial lymphocytes of calves, 45
Influence of selective T-lymphocyte depletion on the lung pathology of gnotobiotic calves and the distribution of different T-lymphocyte subsets following challenge with bovine respiratory syncytial virus, 38
Influence of age of the donor sheep on the phagocytosis of *Staphylococcus aureus* subspecies *anaerobius* and *S aureus* by neutrophils, 231
Interferon-γ production by intestinal intraepithelial lymphocytes of calves, In vitro blastogenic responses and, 45

Laminitis, Evaluation of thrombin-antithrombin complexes and fibrin fragment D in carbohydrate-induced acute, 157
Leucocytic somatic cells in bovine milk, Characterisation of, 179
Lipogenic and lipolytic activities in isolated adipocytes from cattle with fat necrosis, 214
Lipopolysaccahride, Characterisation of the acute phase response of heifers to a prolonged low dose infusion of, 252
Liver metabolism, *Fasciola hepatica* in sheep; changes in, 152

Malassezia pachydermatis from canine skin, Comparison of media and conditions of incubation for the quantitative culture of, 273
Mastitis in *Camelus dromedarius* and the somatic cell content of camels' milk, 55
Measurement of bone specific alkaline phosphatase in the horse: a comparison of two techniques, 160
Meclofenamic acid in dog, goat and horse blood, Protein binding and in vitro serum thromboxane B_2 inhibition by fluxinin meglumine and, 78
Microsporum canis infection, Acquired immunity in experimental feline, 165
Muscle biopsy index for discriminating between endurance horses with different performance records, 49
Mycoplasma gallinarum and Newcastle disease virus (F strain) on the tracheal epithelium of village chickens, Effect of mixed infection of, 176

Nephrotoxicosis in lambs, Gentamicin induced, 187
Newcastle disease virus (F strain) on the tracheal epithelium of village chickens, Effect of mixed infection of *Mycoplasma gallinarum* and, 176

Oscillation technique to measure changes in upper airway resistance in Friesian and blue Belgian calves, Use of the monofrequency forced, 227
Oscillometry and a monofrequency forced oscillation technique in clinically healthy calves undergoing bronchochallenges, Comparative evaluation of impulse, 206
Ovarian follicular cysts and associated changes of plasma LH, FSH, progesterone and oestradiol-17β in cows, Ultrasonic observations on the turnover of, 240

Pathogenic role of pulmonary intravascular macrophages in acute African swine fever, The, 193
Performance failure in Alaskan sled dogs: biochemical correlates, 271
Pharmacokinetics and pharmacodynamics of tolfenamic acid in calves, 26
Pharmacokinetics of propofol used as an induction agent in geriatric dogs, 169
Phosphatase in the horse: a comparison of two techniques, Measurement of bone specific alkaline, 160
Platelet activating factor on the distribution of radiolabelled leucocytes and platelets in normal horses and asymptomatic horses with chronic obstructive pulmonary disease, Effects of, 107
Prevalence of foot-and-mouth disease antibodies in dairy herds in the Netherlands four years after vaccination, 89
Propofol used as an induction agent in geriatric dogs, Pharmacokinetics of, 169
Protein binding and in vitro serum thromboxane B_2 inhibition by fluxinin meglumine and meclofenamic acid in dog, goat and horse blood, 78
Protein-bound and unbound forms of plasma cortisol in piglets after castration at seven or 14 days of age, 22

Receiver operating characteristic curves, Assessment of the quality of tests for the detection of antibodies to Aujeszky's disease virus glycoprotein gE in a target population by the use of, 263
Respiratory syncytial virus, Influence of selective T-lymphocyte depletion on the lung pathology of gnotobiotic calves and the distribution of different T-lymphocyte subsets following challenge with bovine, 38
Response of Dorper and red Maasai lambs to trickle *Haemonchus contortus* infections, 218
Rumen of sheep, Excitatory effects of volatile fatty acids on the in vitro motility of the, 1

Sarcoid, Tumour suppressor gene p53 in the horse: identification, cloning, sequencing and a possible role in the pathogenesis of equine, 114
Seminal plasma of stallions, geldings and geldings supplemented with testosterone, Characterisation of proteins in the, 33
Single-dose pharmacokinetics of ampicillin/sulbactam (2:1) combination after intravenous administration to sheep and goats, 143
Spironolactone on antipyrine metabolism in calves, Effect of, 87
Staphylococcus aureus subspecies *anaerobius* and *S aureus* by neutrophils, Influence of age of the donor sheep on the phagocytosis of, 231
Subclass profile of allergen-specific IgG antibodies in atopic dogs, 136
Sucking period on net absorption from the small intestine of weaned pigs, Effect of supplementary feeding during the, 72

Testosterone, Characterisation of proteins in the seminal plasma of stallions, geldings and geldings supplemented with, 33
Thrombin-antithrombin complexes and fibrin fragment D in carbohydrate-induced acute laminitis, Evaluation of, 157
Thromboxane B_2 inhibition by fluxinin meglumine and meclofenamic acid in dog, goat and horse blood, Protein binding and in vitro serum, 78
Tolfenamic acid in calves, Pharmacokinetics and pharmacodynamics of, 26
Tumour suppressor gene p53 in the horse: identification, cloning, sequencing and a possible role in the pathogenesis of equine sarcoid, 114

Ultrasonic observations on the turnover of ovarian follicular cysts and associated changes of plasma LH, FSH, progesterone and oestradiol-17β in cows, 240
Ursodeoxycholic acid in healthy cats on clinicopathological parameters, serum bile acids and light microscopic and ultrastructural features of the liver, Effects of oral, 258
Use of the monofrequency forced oscillation technique to measure changes in upper airway resistance in Friesian and blue Belgian calves, 227

Validation and application of an enzyme-linked immunoassay for human erythropoietin to canine serum, 13
Ventilation, Cardiopulmonary effects of desflurane in the dog during spontaneous and artificial, 82
Volume assessment of the bovine hoof, 125
